## Monthly payment calculator widget

### Monthly payment calculator

Type in your desired loan amount and your preferred loan duration to find an easy payment plan that works for you.

Required amount

Loan term

Made possible by **medicard** by ifinance

\*This payment is an estimate and is calculated based on an example interest rate of 9.99% and includes an administration fee. All loans are open and may be repaid in full at any time without fees or penalties. The estimated payment is shared for illustrative purposes only. The final loan amount, loan term, interest rate, administration fees and payment amounts are subject to change upon final loan approval.

Your estimated monthly payments  
**\$98.16\***

### Instructions

To embed the Medicard Monthly Payment Calculator widget on your website, please follow these steps.

#### 1. Copy the following code:

```
<style>
  /* Desktop styles */
  .calculator {
    height: 500px; /* Default height
for larger screens */
  }

  /* Small screens (e.g., 600px or
less) */
  @media (max-width: 600px) {
    .calculator {
      height: 1000px;
    }
  }
</style>
<iframe
  src="https://apply.
medicard.com/calculator/loancalculator.
html?sp=REPLACE THIS TEXT WITH YOUR UNIQUE
ID&lang=en"
  width="900px"
  class="calculator"
  style="border: none; max-
width: 100%">
</iframe>
```

#### 2. Paste the code into the HTML of your webpage where you want the calculator to appear.
